Pacific on Shortwave

**Guide to shortwave
broadcasting in the Pacific**

January 2024 (B23)

Pacific on Shortwave

Compiled and edited by Tony Rogers.

Updated: 23 January 2024

Whilst there may be errors and omissions, the strong point of the guides is the ability to correct and update quickly. Please do not hesitate to let me know if you see something that doesn't look right. Thanks!

Descriptions used in this guide may have been taken from radio station websites and/or Wikipedia.

Australia

Australian Broadcasting Corporation

The Australian Broadcasting Corporation (ABC) is Australia's national broadcaster. The ABC now provides radio, television, online, and mobile services throughout metropolitan and regional Australia and overseas through ABC Australia and Radio Australia. However, all domestic and external broadcasting on shortwave has been discontinued

ABC Radio Australia - Wantok programme

Although Radio Australia's shortwave service has been discontinued, the ABC Wantok programme is broadcast on shortwave by RNZ Pacific three times a day, Monday to Friday. The Wantok programme is 30 minutes of news and current affairs broadcast in Papua New Guinea Tok Pisin, Solomon Islands Pijin and Vanuatu Bislama pidgin languages:

Time/UTC	Days	Relayed by	kHz	Transmitter site	kW	Target area (as per RNZ)
0800-0830	Mon-Fri	RNZ Pacific	13755	Rangitaiki, NZ	50	Pacific
1228-1300	Mon-Fri	RNZ Pacific	13755	Rangitaiki, NZ	50	NW Pacific, Vanuatu, Solomon Islands, PNG
2210-2240	Mon-Thu	RNZ Pacific	15720	Rangitaiki, NZ	50	Pacific

Domestic HF Licences

Changes were made to Australia's Broadcasting Act in December 2000 to permit Christian Voice International to begin using the Radio Australia shortwave transmitters in Darwin, and to allow HCJB Australia to build a new facility at Kununurra in Western Australia. If a broadcaster wants to target a domestic audience within Australia, all they need do is apply to the Australian Communications Authority for a Domestic HF Licence (DHFL). It costs a few hundred dollars and the lower range frequency allocations are specifically exempt from ITU Regulations.

The frequencies available are anywhere in the range 2300-26100 for broadcasting 'within Australia and its territories' and the following frequency blocks are only available for the DHFL broadcasters: 2300-2495, 3200-3400, 3950-4000, 4750-4995 and 5005-5060 kHz. The power of these stations is typically 1 kW.

Here is a summary of stations currently on air (regularly or irregularly) with for details for each below:

kHz	Station
2310 USB	Shortwave Australia
2325	Station X / Radio 567
2368.5	Symban World Radio
3210	Unique Radio Australia
4835	Shortwave Australia
4970	Station X / Radio 567
5035 USB	Unique Radio Australia
5045	Bay Islands Radio
5055	Radio 4KZ

Shortwave Australia

Shortwave Australia is an operation run by David Stuart in Victoria

Times/UTC	Days	Language	kHz	kW
0600-1530	Daily	English	2310	0.1
			4835	0.1

Station X

Station X is operated by Peter Tate in Wee Waa, New South Wales. The current antenna on 4970 is an inverted-L with 100w out. However, Peter is constantly doing antenna design experiments to get out the best signal and has an active page on Facebook with further information: <https://www.facebook.com/groups/123554367678571>

Time/Days	Language	kHz	kW
24 hours	English	2325	0.1
24 hours	English	4970	0.1

Symban World Radio

SWR is based in Sydney, New South Wales, and established in 1997 to serve the Greek community of the city. It operates on mediumwave 1692 kHz and FM, and irregularly on shortwave 2368.5 kHz. The transmitter site is Leppington, Sydney New South Wales.

Time/Days	Language	kHz	kW
variable	Greek	2368.5	0.5

Unique Radio Australia

Unique Radio Australia is located in Moree NSW and has been operating since 2016. Owner Tim Gaynor has a background in community radio and his station provides a variety of programming not necessarily heard on mainstream media. More at <https://www.uniqueradio.biz>, where URA also streams via the website. Tim points out that the correct name of his station is "Unique Radio Australia", so as not to confuse with the "Unique Radio" online station in London UK.

Time/UTC	Language	kHz	kW
as below	English	5035	around 100 watts PEP
		3210	see comment below

Tim says that 3210 kHz is mainly used for when the station gets hammered by over the horizon radar or other interference on 5035 kHz USB. Otherwise URA is mostly using 5035 kHz USB.

The schedule as of 14 November 2023 is:

Monday	0600-1100
Tuesday	0800-1100 (sometimes extends to 1400)
Wednesday	0600-1400
Thursday	0600-1600
Friday	0800-1600 (nominal - hours vary)
Saturday	0700-1600

Relays Radio Six International Scotland Sunday 0600-1100 UTC (extends to 1300 on the first Sunday of the month)

Bay Islands Radio

Bay Islands Radio broadcasts from a low-power shortwave transmitter at Russell Island, Queensland.

Time/UTC	Language	kHz	kW
variable	English	5045	0.15

Rob Wagner comments "The schedule is pretty loose and is missing on some nights. The correct location is Russell Island (not nearby Macleay Island), about 35 km southeast of Brisbane City. As confirmed recently by one of the operators, Shannon Shuttleworth. The website doesn't get much love. For more current updates, see Facebook <https://www.facebook.com/Bayislandsradiofm88>." (RW, August 2023)

Radio 4KZ

Located in Innisfail since 1967, Radio 4KZ covers the tropical coast of Far North Queensland on 531 kHz and FM. Its SW transmitter was launched on 20 December 2017 to serve the remote areas of north Queensland. The station is part of the NQ Radio Network (<https://nqradio.com.au/>). The direct link for 4KZ is: <https://nqradio.com.au/our-stations/radio-4kz/>

Time/UTC	Language	kHz	kW
2000v-1100v	English	5055	1

Many thanks to Tim Gaynor and Rob Wagner for updates and corrections for the Australian domestic shortwave stations.

International broadcasting on shortwave

Reach Beyond Australia

Since 2003, Reach Beyond (formerly HCJB) has been broadcasting on shortwave to Asia.

Transmitter site: Kununurra, in the Kimberley in far north Western Australia

Hobart Radio International

Hobart Radio International (The Voice of Tasmania) is a shortwave community service relayed across the globe via shortwave and FM in New Zealand. They describe themselves as "the voice for Tasmania, and will always be developing and different. Crossing the borders since 2004, telling the unknown and investigating on what's important". The times and frequencies below are subject to confirmation and there may be more releases of the show on other shortwave stations.

KTWR Digital schedule for B23

Transmitter site: Merizo - DRM operating at 50 or 90 kW.

Day	Time (UTC)	Frequency	kW	Coverage Area	Language
Monday	1215-1245	9910 kHz	90	China	Chinese
Tuesday-Friday	1515-1545	13690 kHz	90	South Asia	English
Saturday	1100-1130	12040 kHz	90	China	English
Saturday	1130-1200	9320 kHz	50	Japan	Japanese
Saturday	1200-1230	9320 kHz	50	Japan	English
Sunday	1500-1545	13690 kHz	90	India	English
Sunday	1600-1630	13690 kHz	90	India	South Indian languages

The schedule for broadcasts in South Indian languages at 1600-1630 is:

1st/3rd Sundays: Tamil, Malayalam and Kannada

2nd/4th Sundays: Tamil, Telugu and Hindi

5th Sunday: Tamil

Federated States of Micronesia

The Cross

The Cross is the radio station of Pacific Missionary Aviation. Their website says that the shortwave service "is currently down as we are awaiting an engineer and parts". Its assigned frequency is 4755 kHz.

New Zealand

International broadcasting on shortwave

RNZ Pacific

RNZ Pacific (formerly Radio New Zealand International) is a division of Radio New Zealand and the official international broadcasting station of New Zealand. It broadcasts a variety of news, current affairs and sport. The station's mission statement requires it to promote and reflect New Zealand in the Pacific and better relations with Pacific countries.

Transmitter site: Rangitaiki, Taupo District, Bay Of Plenty region of New Zealand's North Island.

Norfolk Island

Radio DX, Norfolk Island

A new licensed broadcast station "Radio DX" tested on **5045 kHz** with around 200 Watts during April 2022, and was heard by DXers in NZ, Australia and West Coast USA. The station has a licence authorising up to 1 kW from Australia's ACMA. It has been set up by Nick Hacko VK9DX who moved to Norfolk Island in October 2021. The station operates with occasional tests.

Northern Mariana Islands

International broadcasting on shortwave

USAGM Northern Marianas "Robert E Kamosa" Transmitting Station

The USAGM REKTS consists of two sites and Saipan and Tinian, relaying VOA and Radio Free Asia to Asia.

Palau

International broadcasting on shortwave

Hope Radio

The shortwave station on the island of Palau was founded by George Otis Sr. of Highmark Ministries and later sold to LeSEA Broadcasting under the late Dr. Lester Sumrall's ministry. As of September 2020, Joe Perozich became the CEO of the station and established Hope Radio. Hope Radio broadcasts to South East Asia with a mission to preach the gospel in the most populated parts of the world.

Papua New Guinea

National Broadcasting Corporation

NBC is Papua New Guinea's state owned broadcaster. Its head office is in Boroko, Port Moresby, and has approximately 20 locations around the country.

NBC Madang

Madang (old German name: Friedrich-Wilhelmshafen) is the capital of Madang Province on the north coast of Papua New Guinea. It was first settled by the Germans in the 19th century. NBC Madang on 3260 kHz (4 kW) is currently inactive.

NBC Bougainville

Bougainville, officially the Autonomous Region of Bougainville, is an autonomous region in Papua New Guinea. The largest island is Bougainville Island, while the region also includes Buka Island and a number of outlying islands and atolls. The interim capital is Buka, though it is expected that major government services and buildings will be moved to Arawa, following reconstruction. NBC Bougainville on 3325 kHz (5 kW) is currently inactive.

Wantok Radio Light

Wantok Radio Light is a radio station operated by Papua New Guinea Christian Broadcasting Network, a non-profit, non-commercial Christian ministry. They broadcast on 93.9 FM in Port Moresby, 105.9 FM in other provinces and on shortwave 7325 kHz (1 kW) throughout PNG and overseas, although the latter has been reported off-air due to a transmitter problem.

Solomon Islands

Solomon Islands Broadcasting Corporation

Solomon Islands Broadcasting Corporation (SIBC) is the official radio broadcaster of Solomon Islands. SIBC is self-defined as a public service broadcaster "which facilitates educational programs, recording and promotion of local music, and the unity of diverse cultures in a scattered island nation".

Transmitter Site: Honiara - 10 kW.

<i>Time/UTC</i>	<i>Days</i>	<i>Language/format</i>	<i>kHz</i>	<i>Notes</i>
1900-1200	Daily	Tok Pisin/English	5020	
1200-1900	occasional	Music	5020	overnight service with music, but no announcements

Vanuatu

Radio Vanuatu

Radio Vanuatu is operated by the state-owned Vanuatu Broadcasting and Television Corporation.

Transmitter Site: Emten Lagoon, Efate - 10 kW.

<i>Time/UTC</i>	<i>Days</i>	<i>Language</i>	<i>kHz</i>
1830v-1958v	Daily	Bislama/English	3945
1958v-2258v	Daily	Bislama/English	7260
2259v-0658v	Daily	Bislama/English	3945 (had previously been on 9960 during this time)
0658v-1100v	Daily	Bislama/English	3945

Radio Vanuatu usually begins its daily transmission at approximately 1830 UTC (0530 local time) with 15 minutes or so of instrumental music, with the National Anthem at around 1845 followed by the opening announcement and the start of normal programming.
