Key to Abbreviations in Notes column

#	In "Notes" column = transmitter not in service at time of publication (inactive or planned).
>>	In "Notes" column = change of station or frequency expected.
\$\$	Power increase or coverage improvement approved for this station
CR	Community Radio station – not-for-profit services operating with 5-year licences.
AM	Amplitude Modulation (as used on the medium, long and shortwave broadcasts bands)
FM	Frequency Modulation (as used on the VHF broadcast band)
kW	Transmitter power in kilowatts
LRSL	Low power FM stations operating with a long-term (5 year) licence on FM
Pol	Polarisation: c=circular; h=horizontal; m=mixed (horizontal+vertical); v=vertical
R5	In "Notes" column = BBC Radio 5 Live is relayed overnight (approx 0100 to 0500/0600).
RSL	Restricted Service Licence (duration usually a maximum of 28 days).
VHF	Very High Frequency (see also FM, above)
WS	In "Notes" column = BBC World Service relayed overnight on R4 from 0100-0520 local time.

All **times** mentioned are UK local time (GMT/UTC from the fourth Sunday in October until the last Sunday in March, GMT/UTC +1 hour from April to October).

Parallel frequencies are listed for **local** stations as a guide, but separate programmes and advertising may be carried at times, especially when frequencies are shown in brackets. Even when carrying common programming, local identifications and commercials may be inserted.

Overnight (0100-0500/0600) with some exceptions BBC local stations in England as well as Radio Wales, Radio Scotland/Radio nan Gaidheal and Radio Ulster relay **BBC Radio 5 Live** overnight. BBC Radio 4 and Radio Cymru carry **BBC World Service**.

Many smaller **commercial** and **community** stations are automated overnight, usually with local IDs inserted. Low Power AM and FM stations may relay a variety of sustaining services.

BBC Radio Scotland local news: Certain Radio Scotland FM transmitters (marked a/b/h/sw) carry local news bulletins and weather forecasts Monday-Friday at the following times:
