Please do not hesitate to let me know if you see something that doesn't look right.
Errors and omissions will be corrected as quickly as possible.

Descriptions used in this guide may have been taken from radio station websites and/or Wikipedia.

This is a guide to external/international (cross-border) services broadcasting on mediumwave in Europe, Africa, the Middle East, Caucasus, Asia and the Americas. It is compiled with the intention of highlighting some of the more interesting services and programmes for the DXer and mediumwave listener.

Many international services originate from high-power transmitters and offer a good opportunity to hear and identify more distant stations on mediumwave, especially as familiar interval signal tunes and standard introductions/closures to broadcasts often makes it easier to pick them out on a crowded channel.

If you know of anything that can be added to this guide or if you spot any errors, please do not hesitate to let me know. Corrections and additions can be made quickly! Thanks.

621 kHz

EGYPT - Voice of the Arabs

Voice of the Arabs or Sawt al-Arab was one of the first and most prominent Egyptian transnational Arabic-language radio services. Based in Cairo, the service became known to many Arabs and non-Alike, as the main medium through which former Egyptian president Gamal Abdel Nasser spread his messages on Arab unity and revolutions across the Arab world. Despite its unmatched popularity in most of the 1950s and 1960s, the service no longer commands a large audience and does not play a significant role in domestic Egyptian or regional politics.

Transmitter site: Tanta, Gharbia (northwest Egypt) - reported to be 35 kW in MWList

Time/UTC	Days	Station	Language
0800v-1200v	Daily (may be missing on some days)	Voice of the Arabs	Arabic

Rihards Millers has been monitoring Voice of the Arabs on 621 kHz and the best time to hear them is around 0800v to 1200v. The most recent observations in November 2024 have noted the transmitter being switched on just before 0800 and closing at around 1200, although this may vary slightly by the day.

KOREA (North) - Voice of Korea

The Voice of Korea is the international broadcasting service of the Korean Central Broadcasting Committee. It broadcasts its Japanese service on mediumwave for listeners in Japan.

0700-1250	Daily	Voice of Korea	Japanese	Japan
2100-2350	Daily	Voice of Korea	Japanese	Japan

TAJIKISTAN - USAGM relays

The USAGM used a mediumwave transmitter in Tajikistan on 621 kHz for broadcasts to Afghanistan. When the Taliban took control of Kabul on 15 August 2021, the two USAGM mediumwave transmitters in Afghanistan continued to operate on 621 kHz (Tani-Khost) and 1296 kHz (Kabul). However, on 1 December 2022, those transmitters were eventually silenced and USAGM broadcasts subsequently resumed from Orzu, Khatlon Region (250 kW), in neighbouring Tajikistan. But as a result of President Donald Trump's decision on 15 March 2025 to reduce the USAGM, most services have since been silenced, including relays of VOA Deewa Radio and RFE/RL Radio Mashaal on 621 kHz via Tajikistan.

TAJIKISTAN - USAGM relays

The USAGM used a mediumwave transmitter in Tajikistan on 1296 kHz for broadcasts to Afghanistan. When the Taliban took control of Kabul on 15 August 2021, the two USAGM mediumwave transmitters located in Afghanistan continued to operate on 621 kHz (Tani-Khost) and 1296 kHz (Kabul). However, on 1 December 2022, those transmitters were eventually silenced and USAGM broadcasts subsequently resumed from Orzu, Khatlon Region (250 kW), in neighbouring Tajikistan. But as a result of President Donald Trump's decision on 15 March 2025 to reduce the USAGM, most services have since been silenced, including relays of RFE/RL Radio Azadi on 1296 kHz via Tajikistan.

LITHUANIA - Radio Lenta / Radio Pravda

Radio Lenta (and may also refer to itself as Radio Pravda) is a project that started broadcasting on 5 August 2022 on 1557 kHz from a transmitter in Lithuania. The programmes are produced in the Netherlands and intended for listeners in Russia, with the purpose of directing against disinformation, against war, and to compensate for Russian anti-Ukrainian propaganda. The transmitter has a rich history, being the one that was used by Big L on AM 1395 kHz from Trintelhaven in the Netherlands, in an attempt to reach a daytime audience in England. Later it was used on 1008 kHz to broadcast the religious station Groot Nieuws Radio. Since GNR's closure on 1008 kHz in early 2019, the transmitter had been stored in the Netherlands before being moved to Lithuania. It may also ID as "Nasha Lenta" ("Our Band") in Russian.

Transmitter site: Sitkūnai, Lithuania - 50 kW

Time/UTC	Days	Station	Language	Primarily for listeners in
1800-0000	Daily	Radio Lenta/Radio Pravda	Russian	Western Russia

Alex Miatlikov notes that the schedule on 1557 kHz changes quite often, either extending or cutting it by one or two hours.
